Basic Information	
Product Name	AffiniPure Rabbit Anti-goat IgG (H+L)
Catalog Number	BA1040
Isotype	IgG
Immunogen	Goat IgG (whole molecular)
Host	Rabbit
Purity	The antibody was purified from antisera by immunoaffinity chromatography.
Format	Lyophilized
Concentration	0.5-1 mg/ml, actual concentration vary by lot. Use suggested dilution ratio to decide dilution procedure.
Contents	1 mg specific antibody; 0.01M PBS.
Specificity	This antibody is specific for goat IgG and shows no cross-reactivity has weak cross-reactivity with human IgG and shows no crossreactivity with rat/mouse IgG.
Tested Application	WB, IHC, IF, ICC, ELISA
Method of use	Reagent dilution: the specific concentration is determined by the user 0.01M PBS buffer (pH 7.0-7.6), or 1% sodium acetate can be diluted. After dilution, it cannot be stored for a long time. After adding preservatives (such as 0.05%NaN3) and reagent grade BSA to 1%, the antibody can be preserved for a long time. When labeling antibodies, such as HRP, FITC, Biotin, etc., the reagents should not contain BSA and NaN3.
Storage	At -20°C for one year from date of receipt. Avoid repeated freezing and thawing.
