Basic Information

Product Name	Unconjugated AffiniPure rabbit Anti-Avidin
Source	Rabbit
Clonality	Polyclonal
Isotype	IgG
Tested Application	ELISA
Contents	1 mg/ml 0.01 M PBS.
Immunogen	Avidin
Concentration	1 mg/ml
Purification	The antibody was purified from antisera by immunoaffinity chromatography.

Storage

At 4℃ for 12 months from the date of receipt. Avoid repeated freezing and thawing.

Background Information

Avidin is a glycoprotein with four identical subunits, each of which can bind to biotin with extremely high affinity. Rabbit anti-avidin can specifically recognize avidin in the sample. In ELISA experiments for detecting the binding of biotinylated molecules and avidin, rabbit anti-avidin will only bind to avidin in the sample and will not cross-react with other irrelevant proteins.

Selected Validation Data
