Selected Validation Data

IHC analysis of dusp4 using anti-dusp4 antibody (DZ41233) . dusp4 was detected in a paraffin-embedded section of zebrafish heart tissue. The tissue section was incubated with rabbit anti-dusp4 Antibody (DZ41233) at a dilution of 1:200 and developed using HRP Conjugated Rabbit IgG Super Vision Assay Kit (Catalog # SV0002) with DAB (Catalog # AR1027) as the chromogen.
